

PRINCIPLES OF REVIEWING PUBLICATIONS

- At least two independent reviewers shall be appointed to evaluate each publication.
- Reviewers shall be appointed by the Editor-in-Chief, taking into account the recommendations of the Scientific Council.
- For texts written in a foreign language, at least one of the reviewers should be affiliated with a foreign institution other than the nationality of the author of the work.
- The names of the reviewers are not disclosed to the corresponding author and the name(s) of the author(s) are not disclosed to the reviewers.
- The review must be in writing and conclude with a clear request for release or rejection.
- The rules for the eligibility or rejection of a publication and any review form shall be made public on the Journal's website.
- The Scientific Council and the Editorial Board of the journal *Zagadnienia Społeczne (Social Issues)* shall not approve of any manifestations of scientific misconduct and violation of scientific ethics.
